

Fresh Brew Coffee Machines

Marco Filtro Shuttle

Our Opinion

"You'll love this one, if you're looking for a fully portable unit with the ability of producing over 300 cups of fresh coffee per hour, the shuttle will do just the job. The thermo flasks will hold up to 6ltrs of fresh coffee each, well done Marco."

Ideal for medium to high volume coffee requirements, e.g. Hotels, restaurants and canteens.

Features
